

RISE OF THE LOUB JOB

A black high-heeled shoe is integrated into the 'LOUB JOB' text. The shoe is positioned vertically, with its heel resting on the 'O' of 'LOUB' and its toe pointing towards the 'B' of 'JOB'. The shoe is rendered in a solid black color with a slight shadow.

REJUVENATING & RELIEVING YOUR FEET

The "LOUB JOB" is being requested more and more by women! This involves injecting dermal fillers into the ball of your foot, to cushion the foot pad and prevent pain. The result of the injections is added cushioning, which makes high heels much easier to wear all day!

When your feet are weary and feeling the miles you put on them, you do not have to resign yourself to a new reality of life without your favorite high heels or shoes. With a little care and expert intervention from Dallas Podiatry Works, you can restore your feet to a more youthful, beautiful and comfortable state, and even be able to wear all of your shoes!
